Episode Narrative	**A tornado touched down on the La Boca Ranch destroying a 20-by-30 foot metal shed. The tornado also uprooted some large cottonwood trees about a quarter mile away from the shed. The time of touch down was estimated based on radar and satellite imagery, since nobody was at the ranch when the tornado struck.**

Event Map:

Note: The tornado track is approximate based on the beginning (B) and ending (E) locations. The actual tornado path may differ from a straight line.
